**DETAILED ACTION**

1. Claims 20,22-29 were examined.
2. Claims 1-19,21 were cancelled.

***Section I: Final Rejection***

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 20,22-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claims are rejected based on the lack of detail of wirelessly transmitting additional power.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 20,22-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claim 20 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
8. Claim 22 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
9. Claim 23 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
10. Claim 24 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
11. Claim 26 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
12. Claim 27 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
13. Claim 28 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.
14. Claim 29 recites the limitation "the power" in line 14. There is insufficient antecedent basis for this limitation in the claim.

***Section II: Response to Arguments***

***Objections***

15. Withdrawn.

16. Applicants are thanked for addressing this issue; however, the response is not entirely clear such as what "normal operating power" is, as well as the "additional power" and how is the additional power is transmitted wirelessly.

**112 2<sup>nd</sup>**

17. The antecedent issues stated in the previous office action are withdrawn; however, new issues arise as set forth above.

***Conclusion***

18. Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
